The Rise appeal to the Honorable Chief Minister of Tamil Nadu

We the Tamil people are citizens of more than 70 countries of the world, and we pledge to be law abiding good citizens of those countries. But we owe our civilizational fountain-head to one mother - Thamizh. That makes us distinctly unique, a transnational Cultural Nation built over several millennia based on the values of universalism, peaceful co-existence, transformative hard work; cultural self confidence and environmental primacy.

Largest number of Tamils, almost 75 million, live in Tamil Nadu-India and it makes Tamil Nadu central to contemporary Tamil dreams and civilizational aspirations. Therefore The Rise Global appeals to Hon. Mr. M.K. Stalin, the Chief Minister:

1. To celebrate Thai Pongal as a Global Festival of peace, friendship, shared prosperity and above all environmental primacy.
2. To take all efforts to get Thirukural accepted by the Community of Nations as the non - religious Ethical Code of humanity.
3. To set up offices in key countries and regions of the world to promote and support Tamil trade, business, entrepreneurship, language and culture.
4. To establish a Special Economic Zone in Tamil Nadu for global Tamils to invest and grow.
5. To provide leadership in establishing a Global Tamil Bank, Tamil Stable Coin and a Tamil Digital Wallet.
6. To declare and celebrate Paaventhara Bharathidasan's birthday April 29th as World Tamil Day.

ARAM - அறம்

The Corner Stone of 21st Century Tamil Renaissance.

*We Tamils, an ancient civilization, nearly 100 million in number globally, spread around more than 70 countries. Profoundly inspired by the time tested values of Tamil Aram which find perfect convergence with the Commonwealth ideals, gather in London to form the **Global Tamil Commonwealth as a Civil Society Pivot** that will be committed to:*

- Boost trade and the economy of Tamils through a culture of trust, collaboration, co-creation of capital, positive and close engagement with Governments and global institutions;
- Deepen the ideals of democracy, freedoms, rule of law, peaceful co-existence, shared prosperity of all human beings;
- Vigorously advance environmental and social governance policies stipulated by the Community of Nations to save this planet from climate crisis;
- To develop the Tamil society, particularly our young people, fostering gender equity, 21st century education, health and sports;
- Share our knowledge, competencies, experiences and resources collectively with all people of the world, most specially with communities and regions that would need us most, thus Tamils transforming themselves as a responsible global civil society, effectively contributing to shape a world that would uphold equity, peace and environmental harmony.
