

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

**70+ நாடுகளின் தமிழர்கள் பங்கேற்கும்
உலகத் தமிழ் தொழிலதிபர்கள் மற்றும்
திறனாளர்கள் மாநாடு.**

அறம். பொருள். தமிழ்.

Welcome to London!

Let's make history, together!

Covid-19 has shattered lives, devastated economies. The enormity of the ruptures were a bewildering global spectacle. As the deadly virus continues to hold its potential for mutative mayhem, humanity too has rediscovered its unending tryst with destiny holding on to the age old values of grit, resilience, empathy, community and hope. Tamils, proud inheritors of an ancient civilisation, nearly 100 million in number globally, and spread around all parts of the world would rise up to the task of not just rebuilding but re-envisioning a new Tamil Aram based 21st century and beyond.

Tamil entrepreneurs, professionals, public intellectuals and social leaders from more than **70 countries** of the world will be gathering in London, the mother city of Common Wealth ideals, during **May 05,06,07-2022** to relive the splendour of their civilisational values, to reinforce their collective cultural consciousness as Tamils and make a unified commitment to mobilise and shape a renewed Tamil identity worthy and influential enough to join the global efforts in architecturing a 21st century of co-creation, shared prosperity, freedoms and peace. The global launch of **feGTA - Federation of Global Tamil Associations** during the summit will be one step in that direction.

We welcome everyone to **The Rise Emerge Summit** which we choose to proudly and confidently describe as the **Mother of all Tamil Summits**. To this Summit you will not be coming merely as a delegate, but as a leader who will co-shape the 21st century destiny of Tamils.

Welcome to London !

Team The Rise Emerge.

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

HISTORIC FIRST

This is the first Summit in the history of Tamils to attract delegates from **70+ countries of the world**, covering five continents. Let's be part of an important event in modern history of Global Tamils.

Global Summit of **Tamil
Entrepreneurs and Professionals**
feTAUK Cultural Sangamam.

OUTCOME BASED

CAREFULLY CURATED

The Rise Emerge London Summit is rigorously outcome based. Impactful new initiatives that have been in preparation for months will be launched during the conclave. New proposals that will potentially change the face of Tamils in the global arena will be submitted and adopted. In the words of **Tan Sri Datuk Palan, Pro Chancellor of the University of CyberJaya, Malaysia** and a Member of King's Advisory Council there: this London Summit will change the way Tamils would look at the world, and will change the way the world would look at Tamils.

“

**...to change the way Tamils would look at the world,
and to change the way the world would look at Tamils.**

”

FIVE DIMENSIONAL VALUE PROPOSITION

The Rise Emerge London Summit is planned with the clear intent, and in a manner to create value:

- For every delegate/ participant.
- For every organization, association, enterprise who participates in or associate with the Summit.
- To strengthen the current investment / job generation momentum of Tamil Nadu.
- To the Tamil community as a Global Collective.
- To the wider humanity.

MICRO ENABLERS AS CORE STRATEGY OF INDIVIDUAL VALUE CREATION.

Creation of value to every registered participant / delegate remains the core of Summit strategies. To achieve this objective :

- Every registered participant will be interviewed, profiled and propagated through multiple social media platforms.
- A separate Online Trade Fair platform has been created and all the products and services of registered participants, sponsors and associates shall be exhibited there for 100 days.
- High value online training programs on entrepreneurship, trade and leadership will be organized 60 days prior to the Summit involving top line experts, professionals and accomplished entrepreneurs.
- Series of online networking sessions will be organized 30 days prior to the Summit. All the registered participants will be able to present and showcase their products / services, so that the Summit will become an occasion to sign real-time business deals and partnerships.
- All the above activities will be closely curated and an enabling context will be set for real time business MOUs during the Summit. Key take home for individual participants will be business connect, business closure, new friendships and wider global network.

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

SPECIAL SESSIONS

Solemn Inaugural

CIVILISATION, PEACE AND SHARED PROSPERITY.

True, its a Summit of entrepreneurs and professionals. But we Tamils come to London as proud inheritors of an ancient and living civilisation. A civilization that has much to offer in shaping a more humanistic, communitarian, equitable, environmentally sensitive and peaceful 21st century. To that end **The Rise Emerge London Summit** will loudly proclaim the foundational values of Tamil civilization.

The Solemn Inaugural session shall be dedicated to the **revival of the best of Tamil civilisation, global peace and shared prosperity.**

Thank You London!

On December 03,2021 the London Assembly unanimously passed a resolution to celebrate January as Tamil Heritage month. The historic resolution was moved by Conservative member Hon Nicholas Rogers but passed with glorious unanimity. The resolution praised Tamil as an ancient civilisation, and acknowledged the phenomenal contributions Tamils are making to London and the UK.

The Rise Emerge London Summit shall invite and honour all the members of the London Assembly in a Solemn Plenary Session for the respect they have given to Tamil, Tamils.

TOP GUNS

There are billionaire and multi millionaire Tamils who have built big time business operations. They often go about quietly. **The Rise Emerge London Summit** has a strong focus on bringing together such high net worth Tamil individuals and big time entrepreneurs from all over the world. Their collective linkages could give a huge push to the dreams like trillion dollar economy, global bank, investment bank etc.

Their coming together will be a moment of extraordinary inspiration to upcoming and aspirational entrepreneurs. They could be the guiding undercurrent of growing Tamil businesses worldwide.

The Future

Tamils 2030 Young Leaders Summit

Tamils are an intensely aspirational community. As a cultural community it desires to create a legacy for itself in the civilisational journey. **The Rise Emerge London Summit** is inviting Young Tamil visionary thinkers, public intellectuals, public spirited artists and global experts to provide insights, lay a road map and give hope to the global Tamil community.

Tamil Women 2030

Global Summit of TAMIL WOMEN ENTREPRENEURS & PROFESSIONALS

The future of the world, high professions are undoubtedly Female. Post Covid-19 there is a surge in the number of women entrepreneurs and the trend will continue in the upswing trajectory. **The Rise Emerge London Summit** considers it as an exceptional honour to host the first ever global conclave of Tamil women entrepreneurs and professionals. They will deliberate, set goals and form organisational mechanisms to promote their business globally. TWI - Tamil Women International will be in the forefront driving this conclave. We expect a strong, vibrant, unifying Tamil Women Leadership to emerge globally in the coming years. The Rise keeps this as a priority focus.

Thank you
UK, Europe.
 Thank you
Democracy!

Almost a million Tamils live in the UK, and European Union countries. Nowhere in history hundreds of thousands of Tamil political refugees found dignified existence as the Ezham Tamils found in the UK, Europe, Canada and USA. The welcome they received may not have been perfect and ideal. But it was certainly legally dignified compared to other parts of the world. Children of the refugees are today in the best of European educational institutions and professions thanks mainly to the hard work and spirit of resilience of the parents, but most importantly and fundamentally because of the values of democracy and humanitarian policies of the Western Liberal Democracies and their practice. The Western Liberal Democracies have further given the space for the Tamil diaspora to live and work hard without fear, the Diaspora have inspiringly flourished and in fact become the hope for their sisters and brothers back home. Global Tamils have a moral obligation to be grateful to Liberal Democracy. **The Rise Emerge London Summit** will organise a Special Solemn Session to record its gratitude on behalf of Global Tamils to Western Liberal Democracy, and all the Western countries that gave distressed Tamils a place to live and flourish.

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

TRADE INVESTMENT TECHNOLOGIES

Tamil Start Up Fund

And there will be a Pitch Fest during the Summit!

Global Tamils under the trusted leadership of Mr. Bala Swaminaathan-USA will set up and launch a Start Up Fund to support and strengthen Tamil Start Up entrepreneurs in any part of the world particularly in Tamil Nadu, NE Sri Lanka, Malaysia and Singapore. The Fund will gear up to further strengthen the efforts of Hon.Chief Minister of Tamil Nadu Mr. M.K Stalin to make TN the No.1 State of India in building a robust Start Up Eco System.

The Rise Emerge London Summit will host a Pitch Fest where Tamil Start Up Entrepreneurs will have an unique opportunity to put forward their ideas for Business Funding. Special efforts are also being made to bring together independent professional investors and funding entities to provide investment capital to Tamil Start Up enterprises.

Tamil Nadu First !

Summit of Global Tamil IT Entrepreneurs and Professionals & Launch of Consortium of Tamil IT Entrepreneurs and Professionals.

A parallel Summit of Tamil IT Entrepreneurs and Professionals titled as “**SixthRise Digital Era Summit**” will be an important component and shining moment of **The Rise Emerge London Summit**.

This Summit will position Chennai - Tamil Nadu as the Gateway for Digital Era Transformation Technologies.

This Summit will :

- 1** Deliberate and take stock of the unfolding Digital Era and articulate a road map to adapt and take early advantage of this era which will unleash changes and opportunities similar to the .com revolution of the last century.
- 2** Put in place a Global Tamil IT Leadership, collective in nature, consisting of young and visionary IT entrepreneurs and professionals.
- 3** Globally launch **The Rise Institute of Digital Sciences** and its embedded vision to establish Centres of Excellence for IT Education and a top class Innovation Academy that will create an Innovation Army.
- 4** Establish a Global Tamil IT Consortium that will aggregate merit worthy small IT enterprises, and create global marketing and sales linkages for them.

Global Opportunities Commercialisation

This is a path breaking collaborative arrangement we have carved out for the London Summit. If you have an excellent product or service, but don't know how to commercialise it globally - leave the worry. We have tied up with GOC - Global Opportunities Commercialisation, an Australia based Company that has specialised in what you lack, or find it extremely difficult, that is commercialisation globally. Top Executives from GOC along with the entire team of T-One Global Services will be available in London during the Summit to evaluate your business, and if found worthy, to strategise ways to commercialise it. It is free until the stage of evaluation and validation of your product/service. From there on commercialisation will be an arrangement on business terms between you, GOC and T-One Global Services. In fact the preliminary phase of evaluation and validation process would begin immediately after you register yourself for the Summit.

Exploring the possibility of a **Tamil Economic Hub in London.**

The first ever UK - India Tech Hub was established in the year 2019, in partnership with RAD - Royal Albert Dock, a £1.7 Billion international business district in London. This project was supported by both Govts of UK and India. Phase 1 of the project has 21 buildings, and the entire district is 2 Km long, right next to the London City Airport which is the flying hub of European Union countries. **The Rise Emerge London Summit** would propose the idea and would encourage global Tamil Entrepreneurs of stature and depth to carve out a Special Region within this district to foster business and innovations in to the UK and out of UK. This could potentially enhance the Business profile of Tamil community in the UK and European Union.

Setting up a Tamil Fund in the UK

UK has one of the robust, legally protected ecosystems for financial services in the world. **The Rise Emerge London Summit** would invite Tamil investors, big and small, to set up a Tamil Fund in the UK that can support innovations and entrepreneurship among Tamils, particularly in Tamil Nadu. A Fund structure in UK will allow Indian companies or from any other geographies to secure funding from UK mainstream investors and in addition give the UK investors up to 50% tax rebate, Capital gains relief of up to 72% and a zero capital gains tax. **A Win-Win Proposition !**

Export & Imports

**Focus: SME Sector, Textiles, Handlooms, Artisans
Women Entrepreneurs, Agri Products.**

Export and Imports play a very vital role in the economic functioning and vibrancy of Tamils. That **The Rise Emerge Summit** would bring Tamil entrepreneurs and Professionals from more than 70 countries itself offers a tantalisingly fabulous opportunity to network and connect on Export Import businesses. Further in order to ensure Trust based and Rules based seamless export import business globally, **The Rise has established a global company called T-One Global Services** under the leadership of Mr. Saravanan Sinapan, Malaysia. T-One will perform the intermediary role to check credibility, verify quality of the product /service, negotiate pricing, ensure proper legal guidance and organise logistics. The London Summit will be great opportunity for exporters and importers.

Summit of Global Tamil Auditors & FinTech Professionals.

Focus: Establishing a Core Investment Company.

People
Planet
Prosperity

Invest in
Chennai
FinTech City
NANDAMBAKKAM

Tamils need global guidance in gaining strong foothold in the business of finance and financial technologies. To this end **The Rise London Summit** would gather professionals from these very important domains to discuss and look at ways to collaborate. Momentum will also be built around the nascent idea of establishing a Tamil Investment Bank, along with Tamil Insurance or at least a Core Investment Company that will keep the focus on innovations from the paradigm of **People - Planet - Prosperity**. The Govt. of TN under the leadership of **Hon M. K. Stalin** and Industry Minister **Hon Thangam Thennarasu** has rightly identified FinTech as a **'Sunrise' sector**. A FinTech Governing Council has been set up to facilitate establishment of FinTech companies in the Nandambakkam FinTech City. 'Guidance Tamil Nadu office is also playing a commendably positive role. The London Summit will propasate this FinTech City project globally and mobile Tamil FinTech entrepreneurs to invest in Chennai.

Colloquium of Global Tamil Legal Professionals.

With irreversible globalisation of national economies, interlinked and interdependent supply chains, rule based diplomacy and power relations - the role of legal professionals has become vital and salient. Given their eminently critical place in the democratic arrangement they can also play a tremendously positive role in facilitating global Tamil Political Economy to emerge by bridging the gaps between politics, enterprises, civil society, capital and Governments. Tamils being a transnational cultural collective, a strongly interconnected legal fraternity can do enormous good to it. However no serious effort has taken place so far to set a framework for global collaboration between Tamil Legal Professionals spread across the globe. **The Rise Emerge London Summit** shall create a space and platform for global Tamil Legal Professionals to come together, reflect, discuss, articulate together in order to evolve a framework of global collaboration.

Colloquium of Global Tamil Health care Professionals and Healthcare Entrepreneurs.

And a push for Integrated Health Care.

Covid-19 pandemic has underscored the need for multidimensional collaboration between researchers, professionals, policy makers, manufacturers, technology intermediaries ethicists and healthcare entrepreneurs. The need to share knowledge, exchange ideas, predict future and collaborate is no more a wish but a compelling must.

Globally Tamil Healthcare Professionals, Specialists and Researchers are some of the best and most respected. The wealth of knowledge, expertise and experience they possess are enviably unparalleled.

The Rise Emerge London Summit considers it a humble opportunity to create a touch point for these extraordinary professionals, researchers, health care entrepreneurs and other relevant stakeholders to meet and talk.

Good Health Alliance

This is a strategic project of the Summit as a concrete response to COVID-19 pandemic mitigation and future preparedness. Medical Professionals from varied streams like Siddha will discuss together with mainstream medical practitioners and evolve a framework for Integrated Health Care Approach. The approach will be people based, community driven, drawing in the best from all streams.

Colloquim on Future of Education Summit.

It's a matter of supreme satisfaction that **The Rise Emerge** takes place in a country that gives higher education and research top priority.

The London Summit is inviting some of the best Educationists and intellectuals for a panel discussion on the future direction of global education.

Colloquium of Global Tamil Thinkers, Public Intellectuals, and launch of **The Rise Institute of Applied Strategic Studies and Geo Economics**

This has been a passionate dream. To create a pool of well informed academia and practitioners on international relations, strategic and geopolitical studies, and geo economics who can engage the international and domestic policies and players in the realm of policy making ,and strategic decisions.

We shall launch this International Institute during the London Summit. And it will be the finest moment of **The Rise Emerge Summit**.

Colloquium of Entrepreneurs & Professionals from Engineering, Manufacturing Industries.

Manufacturing industries play a vital role in the depth creation of overall economy. Whereas IT industry has received much attention and policy prominence, engineering industries like Metallurgy, Mechanical, Electrical, Electronics, Aeronautics etc haven't received the due attention they deserve in public discourse and policy reflections. The colloquium of entrepreneurs and professionals from these sectors would help in articulating the present situation, scope, possibilities of cross sectoral collaborations and the required policy support. Global Tamil entrepreneurs, traders and professionals will also have an opportunity to meet them and look at possibilities of globalising their products.

Colloquium of Global Tamil HR Professionals & Entrepreneurs

World Economic Forum- WEF estimates 65% of the children entering primary school today will work in completely new jobs when they will enter the job market, while many in- demand occupations or specialties are less than 10 years old. Woman will be more and more in the work force. Well being will be the job seekers search rather than mere salary. The Rise Emerge London Summit invites HR professionals and Entrepreneurs from all over the world to take stock, predict future and evolve collaborative mechanisms together. The Summit will also be a remarkable opportunity to know where the 21st century jobs are going to open up.

Global Tamil Retailers Summit.

Tamil presence in the Retail segment is significant. Of critical importance is their presence in several parts of the world-Europe, Canada, Singapore, Malaysia, Gulf-Middle East and several more. The global tamil Retail touch points can be envisioned to strengthen the global Tamil production and supply eco system with some smart and intelligent collaborative frame work. The Retailers too might benefit from the global Tamil resources of IT and other technology specialists.

Global Tamil Production and Supply Eco system

The Planned Global Tamil Retailers Summit as a separate track during The Rise Emerge Summit will be path breaking and likely to be the first of its kind on a global scale.

Doing Business with Tamil Nadu, India

**Government of Tamil Nadu
has kept Diaspora engagement
as a priority.**

The Government of Tamil Nadu under the leadership of **Hon M.K Stalin** has not only prioritised Tamil Diaspora engagement it is also creating institutional mechanisms to strengthen and optimise such partnerships. This is the best time for global Tamils to confidently invest in Tamil Nadu and India. The Rise Emerge London Summit has kept investing in Tamil Nadu and India as a strategic focus.

Doing Business with UK, European Union

By GDP the size of UK economy alone is \$2.83 trillion. Put together UK and EU will be the second largest and biggest economic blocs in the world next to the USA. Almost all the countries in the bloc are democracies and practice Rule based global business and relations. They also give high value to knowledge economy, organic and safe food. The post pandemic fissures in global power relations further brings in the prospect of Supply Chain reset. All these offer attractive possibilities for Tamil producers, manufacturers and knowledge based entrepreneurs. At **The Rise Emerge London Summit** you will learn from the experts, academia and practitioners the trade - business opportunities in the UK - EU bloc and ways to gain advantage. Post Covid-19 geopolitics indeed offers fantastic windows to open up and scale business ventures in this bloc. Importantly the legal and banking financial systems in these countries are so robust, this is one region to do business with absolute confidence.

Doing Business with USA

Undoubtedly USA is the largest and biggest market in the world. The country offers phenomenal opportunities in the frontiers of IT, innovations, media, cutting edge technologies and many more. The Rise has built a network of Leaders in the USA and they will be there in London Summit for Panel Discussions as well as closed door interactions on Business opportunities in the USA, and to guide on as well as how to do business with USA. **The Rise** is also planning to set up a robust marketing and sales office in the USA to support its member entrepreneurs particularly IT entrepreneurs. You will gain valuable insights, leads and connects for your business to expand in USA.

Doing Business with Gulf-Middle East Region.

The Rise as an organisation is strongest in the Gulf Middle East region. More than a 100 successful Tamil entrepreneurs are expected to attend **The Rise Emerge London Summit**. They are easy, hands on and proactive, extremely helpful - perfect suits for trade, partnerships and joint ventures. We will have delegates from Qatar, Oman, Kuwait, UAE, Kingdom of Saudi Arabia and Bahrain.

Doing Business with Canada

Canada is projected to be the most democratic, peaceful and equitable country of the future. The Tamil story in that resources rich country is more than fascinating. A highly accomplished team of delegates from Canada will be with us during **The Rise London Summit** to enlighten us about trade and business opportunities there in Canada. They could also provide critical linkages and partnerships.

Doing Business with Africa

Even though Africa has recently suffered its worst recession due to the pandemic this economically unexplored huge continent is expected to grow as a powerhouse of opportunities in the near future. At **The Rise Emerge London Summit** you will meet experts and professionals who interact with global bodies in promoting trade and business with Africa. It is also important for Tamils to develop cultural and economic relations with Africa. The London Summit will be the formal beginning of such an engagement.

Doing Business with Asia Pacific Region.

Fundamental shifts in global geopolitics has given the Asia Pacific region strategic centrality. Competing geopolitical interests will also generate tremendous economic energy. **The London Summit** will deliberate on this with due importance. Further **The Rise** is well rooted in Malaysia, shaping up in Singapore and Australia. Tamils in Singapore and Malaysia have also acquired political leverage which should help their economic surge. The teams from these countries will provide both insights as well as leads.

Economic and Development Vision For North Eastern Sri Lanka.

It is time well coordinated and collaborative efforts are made to give futuristic hope to the Tamil population of North East Sri Lanka. A Special Session preceded by background papers and multi layered consultations shall bring forth a road map along with strategies to transform that region in to a powerhouse of Knowledge Economy and Green Economy.

This effort will be marked as one of the key priorities of **The Rise Emerge London Summit.**

Leadership Program for FAMILY BUSINESS

Significant number of Asian Businesses are family-run. It applies to Tamil Business Eco System as well they suffer mid way due to succession issues, generation gap, leadership issues, lack of family constitution and poor estate planning. **The London Summit** is organising a special track as a Leadership Program for those having Family Business entities.

Establish Companies in Europe

A Special Office will function during the London Summit, within the Summit venue itself to guide and facilitate anyone planning to establish a Company or Business entity in the UK or any European Country. Even after the Summit this office and services will continue permanently to assist Tamil entrepreneurs.

Make London Your Second Home.

Real Estate in London is a safe and growing investment. If anyone is thinking of having a second home in London or the UK, the Summit will have a Special office to guide and facilitate.

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

INITIATIVES

Planet Positive

Declaration of commitment to the UN Sustainable Development Goals.

The UN Climate Change Conference (**Cop26, October 2021**) acknowledged climate change as the most serious crisis humanity has ever faced. Policy frameworks are being formed towards aggressive adoption of green technologies setting even ambitious targets of net zero emissions. With Governments making serious commitments towards addressing the climate change crisis the next two decades will see exponential growth of what can be broadly called Green Economy. Entrepreneurs, technocrats and innovators have unique opportunities here to join and benefit from the **'green momentum'**.

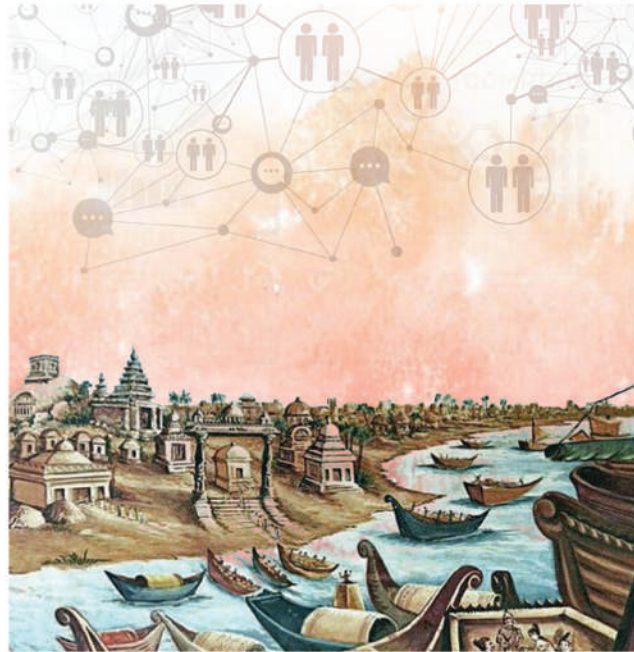

The Rise Emerge London Summit will:

1. Take stock of the climate crisis.
2. Inform delegates and stakeholders about the planet positive businesses, technologies, environmental projects and the availability of funding for such businesses, projects and technologies.
3. The Rise global arm, T-One Global Services will introduce and undertake a platform for eco engaged consumers. This will open up consistent and enduring market scope for Tamil entrepreneurs, producers and tech innovators.

I-feTTEA

International Federation of Tamil Trade and Entrepreneurial Associations.

Making use of the historic **The Rise Emerge London Summit** an effort will be made to federate all the Trade and Entrepreneurial Associations organised and run by Tamils globally. This will be a very flexible federation where the individual organisations will retain their absolute individuality, yet agree to collaborate on certain collective vision. Organisations will also arrive at a concord to provide support to members cutting across organisational boundaries.

feGTA

Federation of Global Tamil Associations

Tamil Associations around the world- cultural, social, economic and professional have played a vital role in preserving Tamil language, culture, arts and localised cohesion. FeTNA- Federation of Tamil Associations of North America was one of the first efforts to unite and federate Tamil associations in the specified geography of North America which has produced commendable positive results. Ten years of ground work for **FeTAUK** has yielded great results and it will see a thumping global launch during **The Rise Emerge London Summit**. Similarly efforts are being initiated to federate all such associations and federations globally and launch as FeGTA, a project that will be a game changer. If a credible collective leadership can emerge out of this experiment it will engineer and pave way for a powerful Global Tamil Civil Society that can propel a vibrant Tamil political economy. **Federations like FeGTA, FeTNA, feTAUK and The Rise** will jointly put forward global initiatives like Thirukural, Tamil Theme Park or Tamil Investment Bank, and many such impactful ideas.

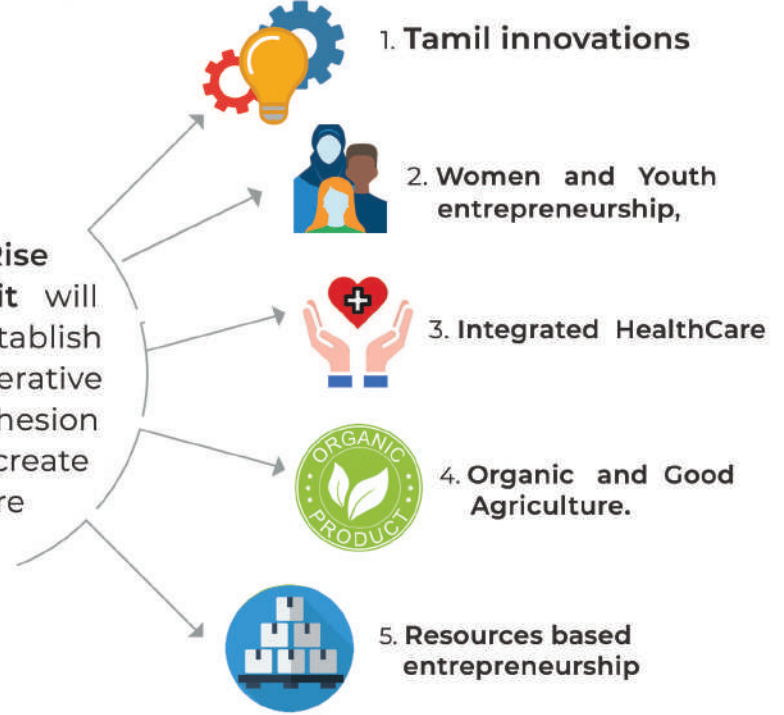

Global Tamil Researchers Network

Research discourses in the Tamil milieu have largely been focused around language, culture and to some extent society and politics which is good. But it is equally important to pay attention to the enormous body of research done by Tamils globally in the domains of engineering, pharma, physics, environmental technologies, IT etc. These research resources while benefiting Tamils and wider humanity they also have critical connect to innovation driven entrepreneurship. The Rise Emerge London Summit becomes the historic occasion to launch the Global Tamil Research Network.

தமிழர் கூட்டுறவு International Tamil Cooperative

The pinnacle of **The Rise Emerge London Summit** will be the resolution to establish an International Tamil Cooperative Movement to give social cohesion to global Tamils, to create collective capital to nurture and grow :

Tamil professionals and women leaders will be entrusted with the task of leading this mammoth initiative. Block Chain technologies will be used to ensure global governance and transparency. If built well, with robust legal frameworks this could be a game changer for Tamils.

Thai Nilam | தாய் நிலம்

Thai Nilam is a visionary initiative to increase and expand the organic agriculture, providing stable livelihood to thousands of rural farmers while also projecting a new model for 21st century living.

தாய்
நிலம்

While Thai Nilam will be Tamil commitment towards rural farming and farmers, the London Summit will also make a firm commitment to Global Food Security requirements and present **GFA - Good Food Alliance** as integrator of Tamil good food security globally.

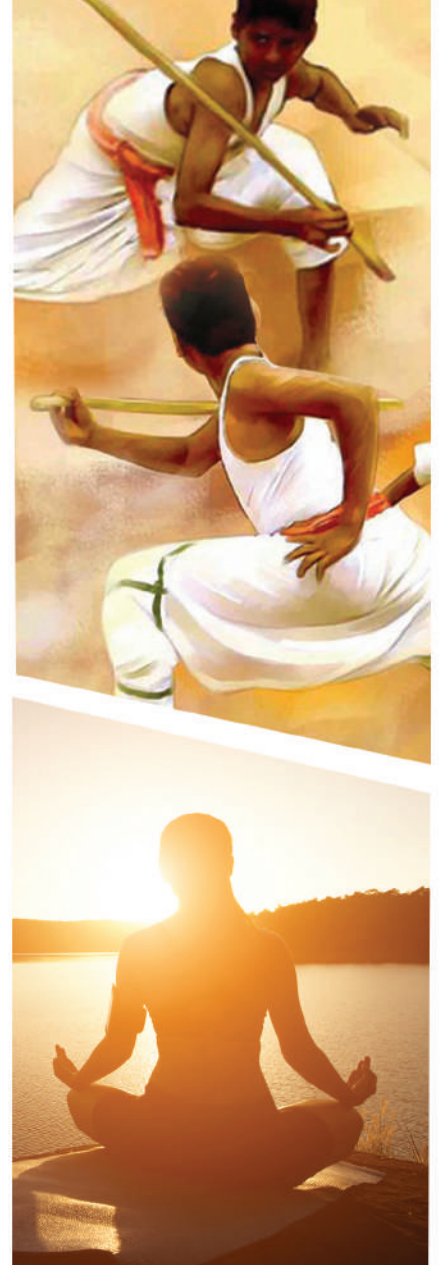

தமிழாலயம்

Institute of Yoga and Ancient Arts.

உடம்பை வளர்த்தேன், உயிர் வளர்த்தேன்.

Global Call to restore the sanctity and sovereignty of human body. There is unanimous consensus that strengthening the immunity index is one best approach towards pandemic prevention and control. The Rise Emerge London Summit shall inform enlightened humanity that such a project requires philosophical reorientation about the human body itself. For long discourse on soul and other world had remained central to spiritual - religious discourse. The Summit will seek the wisdom of Tamil sage Thirumoolar who proclaimed that the soul can flourish only if the body remains a good temple. The London Summit would propose to establish **தமிழாலயம்** in every corners of earth to teach Tamil ethics, environmental living, and importantly setup institutional capacities to rigorously practice ancient and living arts like Silambam, Yoga, Varmam, and mother of all martial arts - Kalari Adimurai developed by ancient Tamils. To this end The Rise would take an initiative in partnership with WTO and other such organisations to globalise Institute of Yoga and Martial Arts.

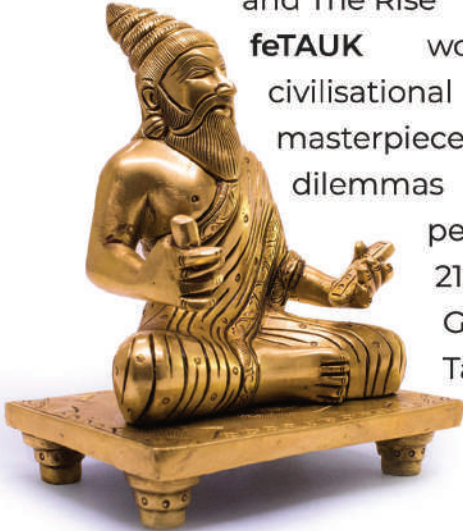

தீருக்குறள்

Global Propagation of Thirukural

Idealistic euphoria and high civilisational hopes that marked the birth of this millennium have now given way to informed reflection and genuine disquiet. Alarming equity deficit of the liberal order has been brought in to sharp focus by the massive and growing disparities between rich and the poor. The polarities of extreme secularisation on the one side and the ferocious rise of religious fanaticism on the other have baffled the enlightenment spirit. The sudden rise of populist tyrannies question the very future of inclusive democracy. Our only common home, the Mother Earth stands severely bruised owing to the madly reckless pursuit and accumulation of material wealth. Humanity's blithe, uncritical and blind surrender to intrusive and pervasive technologies without a rigorous ethical framework could possibly threaten the very survival of human species itself. It is in this context public intellectuals are calling for the rediscovery of civilisational discourse and operative centrality of a values framework for humanity to survive, prosper and endure.

On the occasion of the historic The Rise London Summit **FeGTA** and The Rise along with eminent Federations like **FeTNA** and **feTAUK** would present to the global commons the

civilisational treasure of Tamils, the Thirukural, an ethical masterpiece without religious limitations and mystical dilemmas as the base to evolve a Common Code of

personal, social, economic and political ethics for 21st century. The Summit will request the Government of Tamil Nadu, Tamil organisations and Tamils around the globe to bring Thirukural tenets to the global mainstream. The Summit will also propose to establish Thirukural Theme Parks along with 133 feet tall Thiruvalluvar statues similar

to the one installed at Kanyakumari, in London, New York and Kuala Lumpur and such other major cities of the world to inspire global interest in Thirukural teachings. **feGTA : Federation of Global Tamil Associations.**

feTNA : Federation of Tamil Association of North America.

feTauf : Federation of Tamil Association of UK.

தமிழ் இகம் | Tamil Theme Park

United by Tamil, as Tamils.

We Tamils are a 100 million people living in nearly 100 countries of the world. Divided by castes and religions, but deeply bonded by Tamil language and culture. We have Temples, Mosques and Churches to go, but not one place of cultural pilgrimage for all of us to go as Tamils. The Rise London Summit will unveil and invite the global Tamil community to build a Tamil Cultural Theme Park with support from the Govt of Tamil Nadu and India with grandeur, solemnity and splendour. This will also be a global tourism destination where people of the world will come as travelers and have a glimpse of Tamil history, culture and civilisation.

Institute of Tamil Philosophy and Ethics.

Tamil is more than a language. It is a treasure house of knowledge, learnt wisdom and civilisational ideas. The Institute of Tamil Philosophy and Ethics to be launched during The Rise London Summit will disseminate Tamil philosophical traditions and thought systems, particularly the Thirukural values to a global population.

Tamil Women International

அனைத்துலக தமிழ்ப்
பெண்கள் இயக்கம்.

The Rise Emerge London Summit will make a historic call to Tamil women of the world to lead and pivot the global renaissance of Tamils. They will be encouraged to provide social, cultural, economic, political and thought leadership as a collective. **Tamil Women International** will be launched during the Summit and this shall be both an umbrella organisation for like minded Tamil Women organisations in the world while also attracting individual members. **TWI** shall be tasked to pivot key projects like International Tamil Cooperative. **UKWNET** - United Kingdom Women Network will play an important role in it.

Tamil Women
International

The Rise GenNext Aram League.

ARAM is a conceptual Tamil word that compositely condenses the ideas of goodness, equity, truth, fairness, nobility, empathy and self integrity.

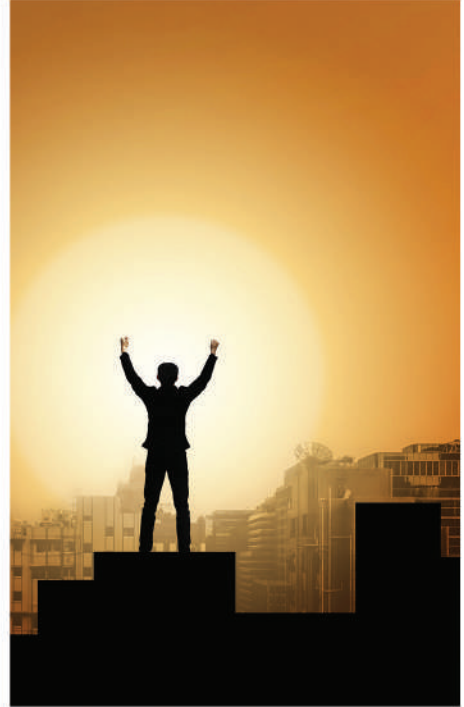

GenNext Aram League, to be launched during the London Summit shall be a platform for Tamil youth worldwide to share ideas, dreams, experience, expertise, resources, and genuine good will to each other. They, by building a culture of spirited collaboration shall enable each other and emerge as the best and most exemplary hope for the 21st century humanity and civilisation.

EEAC**Eminent Elders of an Ancient Civilisation**

We hold some people in high esteem and respect. They would never demand it. But we give them voluntarily because they are respectable by their life, success, contributions. They are either extraordinary women and men of **ARAM**- moral mettle, or achieved outstanding professional entrepreneurial success. They could be successful institution builders. They could be distinguished public servants, journalists, public intellectuals, scholars, writers or just compassionate persons. They would carry with them an intangible power far more captivating than visible positions of power. The Rise intends to pool their incomparable moral power in order to architecture a 'Global Soft Power Voice' representing the Tamils. They will be insulated from everyday politics. But they will engage with all political and power stake holders in a highly dignified and non confrontational manner to achieve long term strategic goals for the Tamil community. They are the **EEAC: Eminent Elders of an Ancient Civilisation**.

தன்னெழுச்சித் தமிழர்கள் **Emerging Tamils**

Tamils are there everywhere in the world today. What they lack though is unified collective vision and social cohesion. Caste, and religion in the recent times, and politics have become the fault lines further weakening the collective strength of the community. This organisation to be launched during the **London Summit** will be transnational in nature and reformist in character. It will be the coordinating agency of like minded Tamils and Tamil organisations.

EMOTE

Healing and Happiness

For the fifth consecutive year Tamil Nadu holds second place in the number of suicides in the country as per National Crime Records Bureau. On an average 36 people take their lives everyday in TN. There are similar reports about increasing number of suicides among Tamils in Malaysia and North Eastern SriLanka. Covid-19 pandemic has further complicated the situation. The need to expand and deepen the capacities for mental health and well being is felt more than ever. Even though it might look odd to discuss this in a Summit of entrepreneurs and professionals, we feel it's a very important area we as a society must pay serious attention to. EMOTE is the organisational pivot that will be internationalised during **The Rise Emerge Summit** with a mandate to promote positive psychology in a holistic manner. Emote is both an institute and a movement for healing and happiness.

TAMIL OLYMPICS

Post Covid-19 exigencies coupled with lifestyle patterns defined by modern technologies and work culture demand a serious and renewed focus on Sports and Games, keeping holistic health and well being as end result. To that end The Rise Emerge London Summit would like to initiate Tamil Olympics as an annual global project inviting and involving Tamils living all over the world. This will also naturally strengthen the bonding, and spirit of collaboration among Tamils. Tamil Olympics will give importance to our traditional martial arts like Silambam, Kalari Adimurai, games like Kabaddi while also having popular games like Football etc.

Global Summit of **Tamil**
Entrepreneurs and Professionals
feTAUK Cultural Sangamam.

GLORY, HONOUR & CELEBRATION

Global Tamil Awards

Gala London Night with Dinner.

From every country where Tamils live one or two Tamil personalities with exceptional track record of Professional /Entrepreneurial/ Public Impact/ Artistic success or commendable Public Service will be identified and awarded at **The Rise Emerge London Summit**. These awards will be given wide publicity globally. In years to come these awards will become prestigious and coveted in the Tamil world.

feTAUK

Mega Cultural Sangamam

Coming together of all Tamil Associations in the UK under **FeTAUK- Federation of Tamil Associations of UK** is historic and futuristic. These Associations will present a colourful and glittering Tamil Cultural Fest on the final day of **The Rise Emerge London Summit**. Young Tamil talents from the UK Tamil community are legioning up to unleash their creativity. There will be Tamil spirit all over. In the end we will embrace each other with new found hope and tell to each other, oh ya, We are Tamils.
